

Fun 'n' Activity Day for the Toddlers

"Water, Water everywhere
Waste no water any where."

With 'Water' being the theme of the ongoing month, the toddlers of Pre School as well as Pre Primary had a fun-filled Saturday on July 16, 2011. The day included making paper boats using origami, role enactment, dancing and singing peppy songs related to rain. Many experiments were also performed to understand the concept of float/ sink and wet/ dry in water. The tiny tots were made aware of the importance of water and ways of saving it. They also played interesting games in the pool. It was indeed, a wonderful day thoroughly enjoyed.
